EDUCATION CMTE

Kathleen Schmeler

Working Groups

- 1) LMIC Education and Training Program
 - ✓ Linus Chuang, Tom Randall, Joe Ng

- 2) Member and Public Education
 - ✓ Ritu Salani, Georgia Fontes Cintra

- 3) Meetings and Symposia
 - ✓ Tarinee Manchana, Al Covens

LMIC Education and Training Program

This workgroup will develop and oversee the Gynecologic Oncology training and education program for LMICs. This will include:

- 1) Developing and maintaining a curriculum for Gynecologic Oncology training and education that can be adapted by each region/program.
- 2) Establishing minimum requirements for individuals to complete the program and receive a certificate.

LMIC Education and Training Program

- 3) Matching institutions and individuals from high-income countries with partners in LMICs wishing to participate in the program (twinning).
- 4) Develop and implement metrics for ongoing evaluation of the program.
- 5) Launch the program at a few pilot sites in 2017, and develop plans for further expansion.

Meetings and Symposia

This workgroup will evaluate and oversee all requests for funding support for symposia/meetings, and coordinate the biennial meeting of the IGCS. This will include:

- 1) Develop an open process for funding requests**
- 2) Develop guidelines for the above**
- 3) Evaluate the needs of the requesting group in conjunction with the mission and values of the IGCS**

Meetings and Symposia

- 4) Continually evaluate metrics from the past Biennial IGCS meeting**
- 5) Plan, Develop and Implement a strategic plan for high quality collaborative meetings including the Biennial IGCS meeting including venue, dates, and program.**
