SUPPORTERS

DEAR COLLEAGUES,

After the phenomenal success of the premiere in 2022 with more than 1,700 participants from 100 countries and the great feedback, it is our very pleasure to invite you to the CMC 2024 Distilled.

We have again „distilled“ – as the subheading says – the crucial aspects of women’s cancer management.

The clinical and scientific update covers the highlights in breast cancer, ovarian, cervical and endometrial cancer. We have prepared an exclusive agenda with presidential lectures, state of the art sessions, pro/con debates, CMC panel discussions and more ... Leading experts from all over the world will present to you a specific program with high impact for your clinical and scientific work.

The live stream from our famous Berlin TV studio will be available free of charge to give access to all our colleagues worldwide – because sharing experience and knowledge is the strong philosophy of the CMC. Please join the discussion: Send us your questions and comments – and make this unique Women’s Cancer Conference a real international gathering!

We are again looking forward to this global dialogue and would be delighted to welcome you.

Sincerely yours,

Prof. Dr. med. Dr. h.c. Jalid Sehoul and Prof. Dr. med. Jens-Uwe Blohmer
Conference Chairs and Scientific Board
